1. Sunday: The Day of the Spark (Activation)

The Vibe: Turning the lights on.

What it is: Sunday isn't the end of your weekend; it's the "Head" of your week. It's the day to set your vision.

The Goal: Start your engines. Set your goals for the week today.

2. Monday: The Day of Focus (Discernment)

The Vibe: Clearing the fog.

What it is: In the Bible, this was the day God separated the waters. It's about making space.

The Goal: Get organized. Decide what's important and what's just "noise."

3. Tuesday: The Day of the Win (Double Blessing)

The Vibe: High energy and growth.

What it is: In the creation story, God called this day "good" twice. It's a day of double favor.

The Goal: Tackle your hardest projects today. It's the best day to get stuff done.

4. Wednesday: The Midpoint Check (Governance)

The Vibe: Checking the compass.

What it is: This is when the sun and stars were set to guide us. It's the pivot point.

The Goal: Make sure you aren't drifting. Adjust your course if you've gotten off track.

5. Thursday: The Day of "More" (Abundance)

The Vibe: Ideas taking flight.

What it is: The day of birds and fish—creatures that are constantly moving and multiplying.

The Goal: Connect with people. Share your ideas. Let things grow and expand.

6. Friday: The Prep Day (Refinement)

The Vibe: Finishing strong.

What it is: This is "Preparation Day." You're getting your "vessel" (your home and mind) ready for the big rest.

The Goal: Wrap up your work. Don't leave a mess for your day off.

7. Saturday: The Big Reset (The Sabbath)

The Vibe: Total peace.

What it is: The only day God called "Holy." It's a day to stop "doing" and start "being."

The Goal: Recharge. If you don't rest today, you'll be running on empty all next week.
